### **DETAILED ACTION**

This Action is responsive to Applicant's response filed on July 30, 2007. Claims 1-14 are pending.

Examiner notes Applicant's amendments and comments have overcome previous issues with regard to first and second paragraph of 35 U.S.C. 112.

#### ***Allowable Subject Matter***

Claims 1-14 are allowable over the prior art of record, renumbered as claims 1-14, respectively.

The following is an examiner's statement of reasons for allowance:

Claims 1, 4 and 10 are allowable because the prior art of record or that encountered in searching for the invention, fails to disclose or suggest a storage system having a controller and a plurality of disk drives for sharing a file stored in the storage system, two host computers stored over a local area network connected to the storage system via a storage area network, and receiving at the controller a host ID of a second computer, determining via a host table of the controller a conversion for a second host computer to manage the file to be shared, converting a first file management information into a second file management information and reading data corresponding to the file to be shared on the basis of the second information from said disk drives by the second host computer comprising a disk area location capable of being managed by a second operating system of the second host computer different from a first operating system of the first host computer, as claimed in addition to the other claim provisions.

Art Unit: 2163

Regarding claims 2, 3, 5-9 and 11-14 depend from independent claims 1, 4 and 10, respectively, and are allowable on the same basis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
